Army permit for the work described below. APPLICANT : Delaware River and Bay Authority P.O. Box 71 New Certification 10, 200

S.T. Hudson Engineers, Inc. 900 Dudley Ave

Cherry Hill, New Jersey 08002 LOCATION: The project is located at the Cape May Ferry Terminal near the intersection of Lincoln Boulevard & Beach Drive, in North Cape May, Lower Township, Cape May County, New Jersey. The purpose of the project is to restore and maintain adequate water double for the orde neutrinoid expertise of the Cape depths for the safe navigation, and continued operation of the Cape

May-Lewes Ferry vessels and/or terminals. PROJECT DESCRIPTION:

The applicant proposes to conduct maintenance dredging of the Cape May Ferry Terminal over an area of 317,117 square feet (7.28 acres) over a 10-year period. An initial volume of approximately 37,566 cubic yards of dredge material is proposed for removal. The Sr, 500 cbbc years of decige material is proposed for ferritoval. The maintenance dredging would be to a depth of 12-feet Mean Low Wa-ter (MLW) with 1-foot of overdredge. Dredging would be performed by hydraulic means and the dredge material would be hydraulically pumped and conveyed by pipeline to the Delaware River Bay Author-ity's confined disposal facility (CDF) adjacent to the Ferry Terminal in Lower Township, Cape May County, New Jersey. Return water from the CDE into the Cape May County. from the CDF into the Cape May Canal is proposed via an existing

discharge weir. The applicant received a Department of the Army permit (CENAP-OP-R-2011-00596) dated February 6, 2012, authorizing dredging activities for 10 years at the Cape May Ferry terminal. At this time, the applicant is applying for a Department of the Army permit to reauthorize the 10-year maintenance dredging activities at the project site. The applicant anticipates that a total of 300,000 cubic yards of dredge material would be generated over the new 10-year maintenance dredging period

For additional project details, see the attached plans identified as: Proposed: Maintenance Dredging, At: Cape May Ferry Terminal, County of: Cape May, Application by: Delaware River & Bay Authority sheets 1-∠ MITIGATION ets 1-2 dated August 30, 2023.

The applicant has stated that the proposed project has been de-signed to avoid and minimize adverse effects on the aquatic environ-ment to the maximum extent practicable. Information provided in the application and on plans indicates that there will be no additional discharge of dredged or fill material in waters of the United States outside of the existing CDF and as such, compensatory mitigation for the proposed structure(s) and/or work is not proposed CORPS EVALUATION FACTORS

The decision whether to issue a permit will be based on an evaluation of the activity's probable impact including its cumulative impacts on the public interest. The decision will reflect the national concern for both protection and utilization of important resources. The benefits which reasonably may be expected to accrue from the work must be balanced against its reasonably forese eable detrimer ts. All factors which may be relevant to the work will be considered including the cumulative effects thereof. Among these factors are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain val-ues, land use, navigation, shore erosion and accretion, recreation, water cumbu and expendition whete guidity engray mode, apticity water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, and welfare of the peopl The evaluation of the impact of this project will also include application of the Rear Mater Act Section 404(b)(1) Guidelines promu-gated by the Administrator, U.S. Environmental Protection Agency if the project includes a discharge of dredge or fill material pursuant to Section 404 of the Clean Water Act.

This District has received an application for a Department of the Army permit pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403) and Section 404 of the Clean Water Act (33 U.S.C. 1344).
