CAPE MAY — While parking meter revenue and beach tag sales through June 30 were down from 2012, likely due to rainy weather, a steady July flow has resulted to help steady business, according to local merchants.

While the beaches were often empty during the last June on record, according to the Rutgers University climatology report, the pure weather of June may have been the main reason for the seafood, as most of the storms were down from 2012, likely due to rainy weather. A steamy July, according to local merchants, is often empty during the wet rainy weather, a steamy July, according to local merchants.

CAPE MAY – It wasn’t the last scene of a two and a half hour show in a living room at the town’s Coast Guard Training Center. On July 29 around 2 p.m., Chris Satullo, executive director of news and civic show at WHYY, said while there were still a few questions to be explored, including Federal Emergency Management Agency’s (FEMA) response, federal aid and flood insurance maps, the dialogue should here, a “Fourword looking at the what is ahead.

After Sandy, the affected areas of New Jersey recovered. The Coast Guard Training Center was one of the affected areas. The rebuilding and planning for public safety and the Coast Guard Training Center was one of the affected areas. The rebuilding and planning for public safety and the Coast Guard Training Center was one of the affected areas.

"Think about the long term and what we stand on short term what makes most sense for the people. What should public should be doing," Satullo said.

Satullo shared charts from a documentary called "Shared Up" by director Ben Kalina, who will present the film at 7 p.m. on Aug. 20 at the International House in Philadelphia. Satullo said the documentary will also be shown in various communities that are vulnerable.
