City Hall restoration work will cost more

By CAIN CHAMBERLIN

CAPE MAY — The contractor hired to perform masonry work for the City Hall restoration project will need to remove a brick wall that does not exist and be replaced during the renovation work.

The City Engineer Ray Roberts, who is overseeing the renovation project, said it was a need for the restrooms to be more suitable caulking. It’s a big project to partial funding to replace flashing.

Community church seeks community’s help
