Cape Regional receives nearly $1M COVID grant

CAPEMAYCOURTHOUSE, N.J. —In March, the city of Cape May and Cape Regional Medical Center of Cape May received $1,050,000 from the U.S. Department of Agriculture. The grant was awarded to the city under the Community Food Access Program, a national health policy, joined by U.S. Sen. Bob Menendez (D-N.J.), who understands that investing in health care and community facilities contributes to the overall well-being, economic development and sustainability of rural America. "U.S. Agriculture Secretary Tom Vilsack and Rural Housing Services Joaquin Inderwies noted that "the funding will enable the medical center to purchase essential equipment to support the expansion of the Emergency Department, including the purchase of Community Affairs and Cape May, Cape May County and the Cape May County Regional Health System. These vital funds will further Cape Regional Medical Center to purchase essential equipment for safety COVID outbreak and to continue the city's commitment to public health."

The city of Cape May, located on the southern tip of Cape May Peninsula, is one of the most spectacular barrier islands in the nation. Cape May is a popular destination for tourists, with beautiful beaches, historic homes, and unique architecture. The city is known for its sandy beaches, historic sites, and unique shopping and dining options. It is a perfect place to relax and enjoy the beauty of the surrounding natural areas.

Welcome Center parking to be scaled back for cost

Cape May, N.J. —The city has made a decision to scale back the Welcome Center parking area. The parking lot, located at the south end of the town, was originally designed to accommodate 20 vehicles. However, due to the limited space and the need to provide additional parking for visitors, the city has decided to reduce the number of spaces to 12. The decision was made to improve lighting and safety in the area.

Kiwians Park getting ADA-compliant upgrades

CAPE MAY —The city has announced plans to upgrade Kiwians Park to make it more accessible to people with disabilities. The project includes the installation of new play structures and soft surfaces for safety. The city also plans to improve lighting in the parking lot. The city is committed to improving the quality of life for all residents and visitors.
