CAPE MAY — City Council passed a resolution Aug 23 at its meeting that formally cancels a contract with the Fund for Cape May regarding the maintenance of Rotary Park after a tree was cut down without approval from the city. The fund must now keep the city fully apprised of its proposed landscaping activities.

The city formally canceled the maintenance contract with the Fund for Cape May at its Aug 23 meeting. The fund will now be required to provide the city with proper notification and permission for all changes to Rotary Park's landscaping. The City Council did not take the action lightly and had been reviewing the situation for several weeks.

The City Council has been working to improve Rotary Park, which includes landscaping and maintenance. The Fund for Cape May was awarded the contract to provide these services.

City officials have stated that they will now send out a request for proposals to other landscaping companies to maintain Rotary Park. This action will help ensure that the city is properly notified and approved of any proposed changes to the park.

A spokesperson for the Fund for Cape May has stated that they will comply with the city's new requirements. They have also expressed their desire to continue working with the city to improve Rotary Park.

Eight options for new Ocean Drive bridges

ENGINEERS estimate cost of $200-$250 million, four years starting in 2021

The South Jersey Transportation Planning Organization (SJTPO), in conjunction with Cape May County and the state Department of Transportation, held a two-hour information session Aug 23 at Lower Township Hall. The three bridges were built in 1939 and are beyond their service life at more than 70 years old, according to the SJTPO. Due to severe condition of the Middle Thorofare Bridge, heavy truck traffic is prohibited, with a sign indicating no loads over 12.5-ton County. Authority officials said that the current study will determine if removal of the Mill Creek, Shadecroft Bridge is the largest of the three spans, 6.7 feet by 9 feet.

The contractor told me he had a substantial positive effect on the overall experience at Lepore's Pit. Murphy vetoed tax breaks for airport growth

WASHINGTON D.C. — U.S. Secretary of Commerce Wilbur Ross, at the conclusion of the new airport and Economic Development Program, has awarded a $3.5 million grant to Cape May County to help build a 20,000-square-foot multimodal business campus that will fulfill the needs of companies in the tourism, agriculture, and shipping industries.

The multimillion-dollar development will be located at the Cape May County Airport in Cape May, New Jersey. The project is expected to be completed in 2022 and is anticipated to create 120 jobs and spur $1.9 million in private investment.

A recent report by the New Jersey Economic Development Authority (NJEDA) indicated that the county needs additional infrastructure and economic incentives to attract new industries and businesses.

Capa May Brewing Co. is also located at the airport. The county airport is a critical asset for the local economy, and the funds will help to attract more businesses and jobs to the area.

The grant was awarded to Cape May County through the Economic Development Program. The funds will be used to construct a multimodal business campus with office space, conference rooms, and support services.

Murphy vetoed tax breaks for airport growth

Jersey is hurting, and the potential to grow in our communities across the nation are working diligently to diversify our economy. The bill, S-230, would provide $3.5 million for Cape May County's Economic Development Program to businesses located at certain airports.
