CAPE MAY STAR AND WAVE

CAPE MAY — The Lady Cannons' defense was impenetrable as they recorded two shutouts in two games last week.

The Lady Cannons beat Cape May 1-0 on Sept. 18 before traveling to Millville to face Millville High School on Sept. 21.

The Cannons did not allow a single shot on goal against Millville.

"We have been working on our defense," head coach Jessica Shaip said.

Dualranger 2000 - The Dualranger 2000 is a simple, multi-monarch butterfly tracking system. Using Bluetooth and unique transmitters, butterfly enthusiasts are able to monitor monarchs and their movements. The system is user-friendly and accessible to anyone, making it an excellent choice for researchers, educators, and monarch enthusiasts.

CAPE MAY STAR AND WAVE

CAPE MAY — A monarch butterfly tracking system has been developed locally and is being used to track monarchs in the area.

"We’re also going to try and reach out for information purposes to the Coast Guard to explain what we’re doing here and why it’s not a threat to the Coast Guard," Crowley said.

Coast Guard suggests PILOT to educate Coast Guard kids

Training Center exempt; city residents fund schooling

CAPE MAY — The city is seeking public input through an area of base housing but has not done so, through an area of base housing but has not done so, through an area of base housing but has not done so, through an area of base housing but has not done so.

"It’s not a threat to the Coast Guard," Crowley said.

"The Coast Guard has been approached with the possibility of adopting a program because it’s a unique situation and we’re the only ones on the coast who have not yet been compensated," he said.

Butterflies get royal treatment

CAPE MAY POINT — Under a cloudy sky, a single monarch butterfly fluttered above the concert gathered to watch the launch of Project Monarch on Sept. 21 at the Cape May Point State Park.

The event was held in conjunction with a three-day recreation of the Woodstock Festival.

"We all know how important this is to so many people," said Councilman Kevin Reilly, who introduced the project.

That day, two monarch butterflies were released, along with 2,250 others.

"All of these monarchs will be attached to sensors and will be tracked by the Coast Guard," Lenzone said.

The event was held near the East Point lighthouse.

"Our project is one of a kind," said Reilly.

"The eyelash glue is very good on top of the butterfly—no problem," said Lenzone.

"Butterflies are tracker devices on an individual," said Crowley.
