City raising water rate for borough, Coast Guard ordinance that would raise

City and Council introduced an ordinance that would raise water rates in the third quarter of each year for those who use in excess of 5,000 gallons per month.

Mullock said the city’s water utility has been operating at a loss. He said the bulk rate increase for customers who use more than 5,000 gallons per month in the first, second and fourth quarters of the year will see a 1 percent increase. Bulk water rates for Cape May Point and the U.S. Coast Guard base were increased during a special meeting March 30. Mayor Dina Mullock said the city’s water utility has been operating at a loss. He said the bulk rate increase for customers who use more than 5,000 gallons per month in the first, second and fourth quarters of the year will see a 1 percent increase. Bulk water rates for Cape May Point and the U.S. Coast Guard base were increased during a special meeting March 30.
