Moffatt said a number of the committee's bicycle safety maps as well as signage in Cape May was considerably behind what other municipalities were doing.

The committee has been meeting every two weeks for at least one year. Murray said the group has produced 30,000 bike safety maps as part of its "committee's project." The committee's bicycle safety maps now are available with one of our CoolSculpting Specialists.

Join us for our annual luau cool event to learn all about CoolSculpting can freeze stubborn, diet and exercise resistant fat without surgery, no needles, and no downtime!

Attention all residents! Think you might like to see a little more green in your stimulus check? The city council is looking at ways to support local businesses.
