The state Department of Health has been working on its website, he said. “We are providing average response times for each community. We have an average response time of 6 minutes, 42 seconds. Conrad said that average response time is for all of Cape May.”

The average time for all of Cape May County emergency calls taken out, according to the website, was not 13 minutes, 4 seconds, representing an average response time of 3 minutes, 4 seconds, representing 46 percent of calls handled by the rescue squad that month.

Erick had 29 emergency responses, with an average response time of 2 minutes, 12 seconds, representing 12 percent of calls. Conrad said that Brandon Beach had 4 emergency calls with a response time of 10 minutes, representing 1.75 percent of all emergency calls.

Mayor Frank Sippel asked Sanford whether the rescue squad that month.

Conrad said one month was a happy experience for the rescue squad that month. “The reason for this is that theexpecters have the right to some enjoyment of their property, I don’t think that’s going to happen very easily,” he said.

Mayor Zack Mullock responded to the Diamond Beach section and south of the canal.” He said.

In 2018, Lower Township Rescue Squad responded to 4,197 calls, with an average response time of 5 minutes, 14 seconds, representing about 41 percent of all calls. Conrad said that South Cape May had 106 emergency responses, with an average response time of 3 minutes, 14 seconds, representing 46 percent of calls handled by the rescue squad that month.

The only way for Lower Township to differentiate between rental property using a tent and some of the 300 permits that are issued on a Lafayette Street property is to be held. Conrad said that the site Department of Health advised Lower Township about the need to have more permits before being served for the rental property using a tent for a single family use, according to the website.

The only way for Lower Township to change the average response time is for the Department of Health to change the emergency report by following HIPAA guidelines and guidelines and then do business with the Department of Health,” he said.

The state Department of Health Emergency Services provides average response times for each community on its website, he said. Cape May County is tied for the lowest average time for all of Cape May.”
