Special to the Star and Wave

CAPE MAY — Stained-glass window artist Christopher Michalek donated a unique stained-glass window to the Cape May Fire Department.

Michalek was commissioned by historian and author Ben Miller to create stained-glass windows for the Cape May Fire Department.

The first piece of stained glass, on display in the Fire Station, depicts the Cape May Lighthouse and all the brave professionals and volunteers who have dedicated their lives to protecting us over the years. The window was presented to the city of Cape May and its Fire Department on July 13 at the firehouse.

Cape May Star and Wave

CAPE MAY — Cape May Star and Wave is seeking input from the community on a feasibility study of building an aquatic center at the Cape May County Airport.

A feasibility study was identified in 2019 by the county as a possible funding sources. The study would require demolition and an environmental cleanup, an adjacent property that has been cleared; and a third parcel that is heavily environmental cleanup.

Kim Vierheilig said the study of building an aquatic center with two swimming pools, offering programs for the pool would be held to determine the best site.

The (water) temperature is different for the ages.
