VILLAS — Lower Township Council voted unanimously Monday to turn over public safety call answering and dispatching of policy, fire and emergency medical service calls to the county effective Sept. 1.

The enabling resolution states the township has determined for reason of efficiency and economy to contract with the county Office of Emergency Management for dispatch services.

The agreement will run for two years. The contract is expected to be relicensed to a reestablished Lower Township Public Safety Building at the Cape May County Airport next year.

Nothing in the agreement requires the county to accept or deny any Lower Township employee because it has the right to terminate township employees to become county employees. Township Manager Jim Ridgway said one employee was hired, and another resigned “and the rest are all being picked up.”

Lower Township will pay the county $600,000 per year for dispatch services.

As required, the waiver of the Consumer Price Index. The agreement notes the $600,000 annual fee may be reviewed by both municipalities into an agreement for any necessary dispatch services only.
