JCP&L receives permit to move ahead on cleanup

BY JACK FICHET

CAPE MAY — Jersey Central Power and Light Company received a permit from the New Jersey Department of Environmental Protection Monday. Permit 774-08, issued by JCP&L, received the approval of the underground cleanup work, which will be able to complete all Phase II remediation work or before Memorial Day weekend.

According to a news release from JCP&L, Project Manager Anna Sutula, said the cleanup work that has been completed is designed to address issues that were discovered during the work authorized by Permit 774-08. The permit was originally issued in December 2014. The permit includes National Garden Club, Inc. Cape May Chapter, and other organizations, that explore human nature that explore human nature. The project is a multi-use project that will support all students, staff, and other community members. The project began in 2014 and is expected to be completed in 2017. The project includes a one-time fee of $75. To learn more about the project, please visit the JCP&L website at www.jcpnl.com.

JCP&L also receives permit to move ahead on cleanup
